Who let the dog out?

Leave this loser in the doghouse. Pulse monitor difficult to use and when can get a reading, it's way off the page.

Robic SC594 Pulse Monitor
By L. Yee

Product does not work as advertised.  Gives inconsistent pulse readings; pulse can be taken a few minutes apart and get various results.  Sometimes it won't return a pulse reading.

Does not work...

By VTfarm

I agree with the other review.  This does not work.  Even the instructions tell you to stand perfectly still to measure your pulse - absurd. See all 7 customer reviews...
